At the November meeting the Community Mental Health program provided an educational presentation: "Northern Health Region Services-internal and external supports".

A question and answer session followed the presentation with Community Mental Health Manager and Executive Leadership participating in the discussion. This gave the LHIG participants an opportunity to ask questions and gain additional knowledge on this topic.

Homework questionnaires were utilized by the LHIGs to gain more community consultation for the group. LHIG members returned completed questionnaires.

At the January meeting the 18 received questionnaires were themed to help the LHIG participants identify strategic community mental health gaps in their area.

LHIG member volunteers to review the themes received by The Pas/Flin Flon and area LHIG and compile into regional recommendations.

Members discussed personal experiences with Community Mental Health.
