

**NOTICE TO PUBLIC
- Leaf Rapids Health Centre -
Reopening**

January 24, 2022

All clinical services will reopen at the Leaf Rapids Health Centre commencing at **4:00 pm on January 24, 2022.**

This includes the emergency department and primary care.

We remind residents that if they have a health emergency, call 9-1-1. EMS continues to be available. For non-emergency health related issues, call Health Links/Info Santé at 1-888-315-9257.

Please Note: *The staffing situation remains fragile and any additional sick calls or COVID-19 staff screening exclusions may jeopardize the centre remaining open. Every effort is being made to maintain health services close to home.*

The Northern Health Region would like to thank the public for their understanding during this very challenging time.
